

Museum Schoolhouse

FALL 2021 SCHEDULE

TITLE	DESCRIPTION	DATES	DAY	TIMES	AGES
Nature Explorers	Ready for an outdoor adventure? Get up-close and personal with the natural environment connecting the Museum to the Ellerbe Creek! This class taps into curiosity through the use of observation, discussion and unique projects. Topics include wildlife biology, botany, earth science or engineering and design! You'll become an expert in foraging, refining natural materials, shelter building, and more!	Sept 7 - Nov 16	Tuesdays	9:30am - 12:30pm	5-9
Ellerbe Expedition	Take your learning outside! In this all-outdoor class, you guide the discussion and the experiments. Topics can range from wildlife biology and botany to earth science and stream conservation. Not only will your curiosity grow, but you will be empowered to find the answers. Each day brings a new adventure and a new opportunity to discover the answers in nature.	Sept 8 - Nov 17	Wednesdays	9:30am - 12:30pm	10-13
Project Imagine: Design in Motion	Calling those with big imaginations! This class helps future designers practice problem solving skills while they tackle motion challenges. Learners will use their imagination to explore the science behind amusement parks! Each session is packed with opportunities to explore science and spark imagination.	Sept 10 - Nov 19	Fridays	12:30pm - 2:30pm	5-9
Investigate: Dino Discoveries	Is your budding paleontologist a fan of Dinosaurs? Peek into prehistory using real archaeological methods! Students will dig into the process of fossilization, explore the world that dinosaurs inhabited, and experiment to find the ways in which dinosaurs may have sounded. No dino discovery is complete without trips to our on-site Dinosaur Trail and Fossil Dig Pit. Your prehistoric prodigies will have a blast in this exciting class!	Sept 7 - Nov 16	Tuesdays	12:30pm - 2:30pm	5-9
Museum Adventures	Can't decide on just one topic? This class may be right for you! Each week we spend the day diving into a different exhibit. Take a behind the scenes tour of the Butterfly House, learn about animal enrichment in Carolina Wildlife, and get a closer look at how our planet changes at Earth Moves. Your child will feel like they know all the nooks and crannies of the Museum!	Sept 8 - Nov 17	Wednesdays	9:30am - 3:30pm	5-10
